*Applicant Signature:	bb bowman 9/13/2017 11:42 AM

Project Description

* Project Goal(s)	The People for Clean Beaches (PCB) helps young people from local schools identify and seniors from the local senior center conduct a clean-up project on one of their local beaches on Cape Cod. Our goal is to ensure that the beaches on Cape Cod are preserved and look beautiful to all residents and visitors alike.
* Project Description:	The PCB organizes groups of young people and seniors to conduct beach clean up. The young people get volunteer hours credit in school and for their college resumes and the seniors get to form relationships with their younger peers. Once the project is selected, a two person team (one senior and one young person) meet to

	determine jobs, supply needs and a date and location. Once the details are worked out, they each go about recruiting volunteers to commit to the project.
*Items to be Purchased with Requested Funds:	<ul style="list-style-type: none">• Garbage Bags• Transfer Station Fees for garbage and recycling• Gloves• Transportation of volunteers• Light snack and water for volunteers
