

RESULTS FRAMEWORK 2017

OVERARCHING RESULT:

Safe, diverse and viable local communities where families thrive.

Listed below are the long term results that we seek and the strategies within those results where we will focus our fundraising, grant-making, and community leadership work.

Health

A community where healthy lifestyle choices are made and people have access to services and affordable care.

Strategies:

Provide resources for healthy aging

Increase services that prevent and lessen the impact of domestic violence and sexual assault

Improve mental health and reduce substance abuse through primary prevention and supportive recovery services

Enrich services to those who are disabled and/or have special needs

Promote professional development for front-line staff

Education

A community where children enter school ready to learn and youth reach their full potential.

Strategies:

Develop programs to increase parenting education and engagement

Increase access to affordable, high quality childcare

Expand the availability of affordable, high quality pre-school, after-school and summer programs

Create opportunities for youth to develop mentoring relationships, build leadership skills, and participate in community service

Promote professional development for front-line staff

Financial Stability

A community where individuals and working families have a reasonable expectation of economic stability.

Strategies:

Stabilize and assist vulnerable individuals and families

Provide financial literacy programs and financial counseling services

Prepare individuals to attain and retain employment

Housing

A community where safe, accessible and affordable housing is available to all.

Strategies:

Increase the availability of affordable housing

Move individuals from homelessness to housing stability

Prevent low-income families from becoming homeless

Help individuals and families attain and/or retain a home

Promote professional development for front-line staff
